Classes begin the week of September 18, 2017

### **Discovery Kids Math Enrichment**

Open to any student age 4 by January 1<sup>st</sup>, 2018  
Mondays, 11:15am-1:40pm

Our Discovery Math Preschool enrichment class is designed to increase children's interest and knowledge of math, building on what young children already know and are capable of doing. The curriculum will emphasize the child's role as an active learner. Through hands on experiences with individual and group activities, children will explore math academic areas. Through their math experiences children will meet the math standards of the NAEYC (National Association for the Education of Young Children) and the Illinois Department of Education Early Learning and Development Standards. The Everyday Math program will be used to implement lesson plans and activities.

Children will be challenged as they explore number activities, including counting and number recognition, simple methods for calculating sums and differences, estimating and comparing, graphing to predict and find solutions to developmentally appropriate math questions. They will experience activities that involve symmetry, patterns, volume and magnitude, estimating and comparing, measuring, sorting and classifying as well as mental math activities.

Children will enjoy lunch with their teachers and peers prior to the start of class.

## **BookWorms Preschool Enrichment**

Open to any student age 4 by January 1st, 2018  
Tuesdays, 11:15am-1:40pm

Our most popular enrichment class is now offered for preschoolers! BookWorms Preschool is designed to increase children's love for literature and authors while enriching their language arts skills and other subject areas. This class focuses on identifying and comprehending the important building blocks of literacy and language including rhymes and phonemic awareness through popular authors and illustrators. An increased understanding as well as an appreciation for the timeless arts of poetry, drama and rhyming in literature will be developed and explored.

**Children will enjoy lunch with their teachers and peers prior to the start of class.**

## **Discovery STEAM Preschool Enrichment**

Open to any student age 4 by January 1st, 2018  
Wednesdays, 11:15am-1:40pm

Discovery STEAM Preschool offers 4 year old preschoolers the opportunity to explore, observe and investigate by participating in hands-on, multisensory experiences and experiments that build on children's discoveries and assist them in developing the habits of mind and skills associated with scientific thinking! Children will be challenged and energized when they share their observations, collect and record data, explore technologies and engineering methods! Each week teachers send home a lesson plan detailing the experiments and activities that will be explored and how these activities meet the Illinois Department of Education Early Learning Standards for Science.

**Children will enjoy a hearty snack with their teachers and peers prior to the start of class.**

## **LaPetite Masters Art Enrichment**

Open to any student age 4 by January 1st, 2018  
Thursdays, 11:15am-1:40pm

Let's get messy! La Petite Masters enrichment program is designed to develop and increase children's love for art and artistic expression through painting, sculpting and various other mediums. Children will develop a love of art through a variety of mediums as well as an appreciation and awareness of great artists from past and present.

Through their classroom experiences, children will meet the fine arts and visual arts standards of the Illinois Early Learning and Development Standards. Children will take what is useful to them and apply it to their everyday lives.

**Children will enjoy a hearty snack with their teachers and peers prior to the start of class.**

## **Discovery Kids Preschool Enrichment**

Open to any student age 4 by January 1st, 2018  
Fridays, 8:45am-11:15am

**Discovery Kids Preschool** offers 4 year old preschoolers (by Jan. 1, 2018) a valuable learning experience through hands-on exploration of literacy, science, social studies, music, drama and art. Students "travel" to different areas of the United States with lesson plans that include geography, science, literacy, and art based on the location the students are "visiting." Each week teachers send home a lesson plan detailing your child's adventure and how their activities meet the Illinois Department of Education Early Learning Standards.

Children will be challenged and energized by this project-based class, learning by what they do best - play! Each week the class rotates topics: Geography, Science, Music, Drama & Art with literacy activities woven into each lesson. The classes flow from one to another, such that a geography lesson on Florida's peninsula leads into a science lesson focusing on oceans and creating waves in a bottle.
